

***AUTO*CRIB[®]**
PREMIER DISTRIBUTOR

DXP, the industrial distribution experts, can help you optimize your inventory and provide the highest level of system design and consulting; field support; and inventory replenishment services. With an AutoCrib industrial vending solution from DXP in place you get much more than just an industrial vending machine. You get a true industrial vending system that's enterprise-ready and designed for industry.

“Working collaboratively with DXP, we have improved our parts supply chain so significantly that our customer expectations have dramatically increased and now we are focusing on developing a vision of and executing supply chain perfection.”

Executive Manager,
Fortune 100 Company

AutoCrib Benefits:

- 24/7 secured access availability
- Item usage reduction of 20%–40% through improved accountability
- Reduced inventory levels and increased turns
- Eliminate lost items and shrinkage
- Eliminate expensive production downtime
- Reduction in walk around/trip time to obtain items
- Extend reach of supply chain to plant floor

RoboCrib LX2000

Secure and manage the issue and return of up to 2,574 different items using pie-shaped bins with the latest in smart carousel technology.

RoboCrib VX1000

Secure and manage the issue and return of up to 1,048 different items using a more compact and cost-efficient carousel-based platform.

RoboCrib VX500

Secure issue and return of up to 628 different items in less than 10 seconds. Vend almost anything, including large or delicate items. No individual repackaging needed.

RoboCrib MX150

Secure issue and return of up to 180 different items. No individual repackaging needed. Perfect for smaller applications or where space is tight.

ScaleMate

Eliminate the need to count small parts and fasteners. ScaleMate automatically determines how many items were taken from a RoboCrib parts cup.

AutoCab

Secure push-button style issue and return of 200+ different items through a variety of drawers, bins, and cabinets.

AutoCrib RDS

The original helix/coil based Remote Dispensing System for managing fast moving items with a keypad or touch screen interface. Make quick transactions with the built-in barcode scanner. Stocks up to 70 unique SKUs.

EleVend

High-speed dispensing, without repackaging for gloves, PPE, and MRO supplies.

AutoLocker

With a variety of configurations, electronic lockers provide secure access to oversized, calibrated, and durable items with issue and return capability. Locker bins with power outlets and LAN are available.

IntelliPort

A turnkey system of radio frequency identification (RFID) readers orientated at a choke point, to track movement of RFID tags in and out of a controlled area.

VisiCab

Next generation object recognition in a fully-automated tool box. An excellent solution for FOD (Foreign Object Debris) control but can be used in any application where 100% of the tools and other items must be returned and accounted for.

TouchCrib Station & MobileCrib

Automate your existing attended or unattended tool room, crib, store area, or build a runner system.
